

# They Count on

# YOU

to Get an  
Influenza Vaccine

When you get the flu, you expose your family, patients and coworkers to infection. Healthy adults may be able to infect others with the flu up to 1 day before they start having symptoms. And once sick, they can infect others for up to 5 days. *That's why it's important for you to prevent the flu by getting your flu vaccine every year.*

**Protect yourself. Protect your patients. Get *your* flu vaccine.**

For more information about influenza and the influenza vaccine, visit [www.cdc.gov/flu](http://www.cdc.gov/flu) or call **800-CDC-INFO (800-232-4636)**.
